## THE FRUITS OF THE VINE ARE AS GOOD FOR YOUR FACE AS THEY ARE IN A GLASS. MERLOT SKIN CARE IS AFFORDABLE ANTI-AGING IN A BOTTLE. FASHIONTRIBES BEAUTY BLOG

Every day, smog, pollution, and harmful UV rays unleash free radicals which bombard your delicate complexion, attacking the skin's collagen and elastin cells.

Fortunately, mother nature has a solution. "Grape seeds contain some of nature's most powerful antioxidants," explains Merlot Skincare founder **Wayne Beckley**. "Grape seed polyphenols have been shown to be 50 times more powerful than Vitamin E and 25 times more powerful than Vitamin C." Their **Natural Grape Seed Moisturizer** delivers a light layer of moisture without harsh chemicals or fragrances. "Merlot's Moisturizer is perfect for even the most sensitive skin. It leaves skin feeling silky while also effectively fighting against particles that damage our skin." Available at [MerlotSkincare.com](http://MerlotSkincare.com).
